

North Country Inns

Privacy & security policy and website terms of use

Your Privacy

Thank you for visiting our website. We are committed to ensuring the privacy and security of your personal information. Our privacy and security policy outlines the information that we collect about you at North Country Inns and how and why we use the information.

Information Collected

Personal information you provide to us while creating or updating an account and when checking-out (i.e. - name, address, telephone number, email address) is maintained in private files on our secure web server and on our internal systems.

Internet 'cookies' are also collected but only if you have them enabled in your Internet browser options.

Use of Information Collected

We offer advanced notice of events, news and special offers to those who sign-up for our email list. Email addresses collected by North Country Inns are only used internally. We respect your privacy rights and will not sell or rent your email address to anyone else. If you would like to be removed from our email list, simply click the unsubscribe link in the email or contact us at any time. Please recognize that in some cases a new email may be in the system for distribution and be sent before we are able to remove your email address from our list.

We use 'cookies' only to help improve our website, through standard analysis tools (i.e. – Google Analytics).

Secure Ordering

All our online card transactions are processed through a third party company (i.e. - Secure Trading). Please follow the web links on their system if you wish to know more about their privacy & security policies.

We do not hold any of your card information. The data that you provide is sent via a secure link (HTTPS) and sensitive data stored is encrypted using standard encryption technology in computer servers with limited access and in controlled facilities.

We also use '3D Secure' which is a technical standard developed by Visa and MasterCard that aims to further secure 'Card Not Present' (CNP) transactions made over the Internet. This is the payment industry's Internet authentication standard and has been developed by the major card schemes.

Visa call their version of the scheme 'Verified by Visa' and MasterCard's is known as 'MasterCard SecureCode'. These are referred collectively to as '3D Secure', which is the online equivalent of 'Chip and PIN' security.

Our online bookings for accommodation are managed by a third party (i.e. – eviivo, booking.com). As major providers of secure online booking systems, we trust them to treat your information & privacy with respect & security at all times. Please follow the web links on their systems if you wish to know more about their privacy & security policies.

Policy Changes

North Country Inns may update this privacy & security policy periodically for new, unanticipated uses not previously disclosed. Any changes made will be posted here. By visiting our website you agree to accept any changes made to this policy. This North Country Inns privacy & security policy addresses specifically the use and disclosure of information that we collect from you on our websites.

North Country Inns will not be held responsible for inaccuracies or for any use to which information on this website might be put.
